a/ Approximates October 2016 payments, before adjustments for haying/grazing, non-compliance, terminations, part-year contracts, and contracts not yet recorded.

^{*} Excludes acres of contracts that start in FY 2017.

b/ Number of farms not additive across sign-up types because farms may participate in multiple sign-up types.

This report provides statistics for land enrolled in the Conservation Reserve Program (CRP), including a summary of FY 2016 CRP related activities, FY 2016 CRP outlays by payment type, CRP enrollment activity, outlay and sign-up history, The tables are based on contract data developed and maintained in CRP data files by Farm Service Agency (FSA) service centers and are generally based on the physical location of the CRP contracted land. FY 2016 ended September 30, 2016. The report was prepared by Alex Barbarika, Resource Economics Branch, Economic and Policy Analysis Division, Farm, Farm Production and Conservation Business Center, U.S. Department of Agriculture.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

<u>General Signup</u>. Producers with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates and select wildlife-enhancing vegetative covers to increase EBI ranking.

<u>Continuous (Non-CREP) Sign-up</u>. Producers with eligible lands may enroll certain high priority conservation practices, such as filter strips, riparian buffers, and wetlands at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives. Lands enrolled under various initiatives are included in this category.

<u>Conservation Reserve Enhancement Program (CREP)</u>. Under CREP agreements, Federal/State partnerships, implement projects designed to address specific environmental objectives through targeted CRP enrollments. Sign-up is held on a continuous basis, general sign-up practices may be included, and additional financial incentives are generally provided. Currently, there are 45 agreements in 33 States.

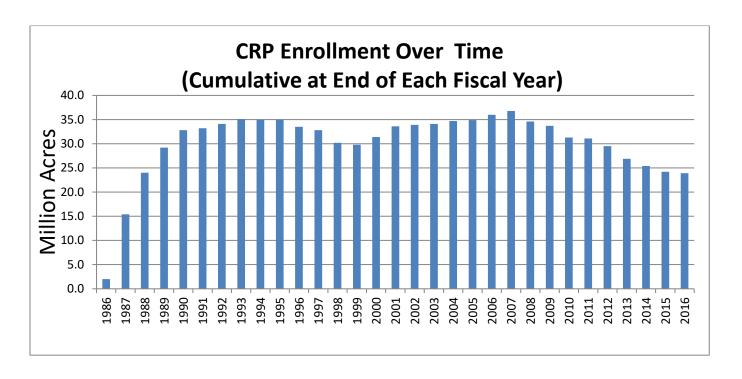

Farmable Wetland Program (FWP). Producers enroll small non-flood plain wetlands, and new practices added by the 2008 Farm Bill, under modified continuous sign-up provisions.

The accompanying tables are based on contract data developed and maintained in CRP data files by USDA Service Centers through the <u>end of September 2016</u> and are based on the physical location of the CRP contracted land. Some adjustments have been made to correct miscoded data in the active contract files.

CONSERVATION RESERVE PROGRAM ENROLLMENT ACTIVITY AND NEWS – FY 2016

- o Enrollment ended FY 2016 at 23.88 million acres, a decrease of 300,000 acres from FY 2015.
- On October 1, 2015 USDA announced it was providing \$4 million to 4 states in the Chesapeake Bay region to support efforts to enroll riparian forest buffers.
- Over 1.8 million acres were offered during general signup #49, and 411,000 acres were determined acceptable. The EBI cutoff was 292.
- o As part of Iowa water quality initiative, USDA on January 5, 2016 announced that it was increasing allocations for SAFE and Farmable Wetland Program by a combined 85,000 acres.
- O During National Pollinator Week in June 20-26, 2016, USDA reported that CRP currently provided 15 million acres pollinator friendly habitat. USDA also announced a Memorandum of Understanding with two honeybee organizations to ensure USDA's conservation initiatives are as advantageous as possible to pollinators.
- On September 9, 2016, USDA announced it was providing \$1 million in partnership with New York state to enroll riparian buffers in the Chesapeake Bay watershed.
- Ocontinuous signup (#50) was ended on September 16, to ensure that the statutory enrollment cap was not exceeded and allow for policy decisions about how to address FY17 contracts. More than 1.3 million acres were enrolled, significantly higher than in any previous year.
